

GREEN FILMING

The most sustainable mobile power system solution on the market.

Support the circular economy

2nd life batteries are upcycled from super reliable Renault electric vehicles, saving scarce battery raw materials. Closing the loop with guaranteed recycling.

Avoid CO₂ emissions to fight climate change

1 betterGen avoids up to 10t of CO₂ emissions over its lifetime compared to a 3kVA generator.

Reduce your impact on the environment

Silent and emission-free mobile power, rechargeable from renewable energy sources.

Flexible power for an entire work-day

Tailor the betterGen to your needs with a 2-5 kW inverter and add up to 3 "click and go" 2.3 kWh batteries – the betterPacks.

Connect to the cloud

Monitor and control battery performance and keep your system up to date with over-the-air updates. Calculate your CO₂ avoidance online.

Power mobile AC-appliances, all-day, anywhere

The betterGen powers your productive tools with a bi-directional inverter integrated in the handcart.

Power your **ARRI Sky panel S60-C** (400W) for 9 hours with 2 betterPacks

Avoid 3kg CO₂ / kWh¹ consumed in comparison to a fuel-based generator

The **betterGen Max** providing 14 kW power (3 phase) and 15 kWh capacity

Coming later in **2022**
